<document identifier>	

1. Header

- The header provides easy access to key site functions including navigation, search, user account management, and the shopping cart

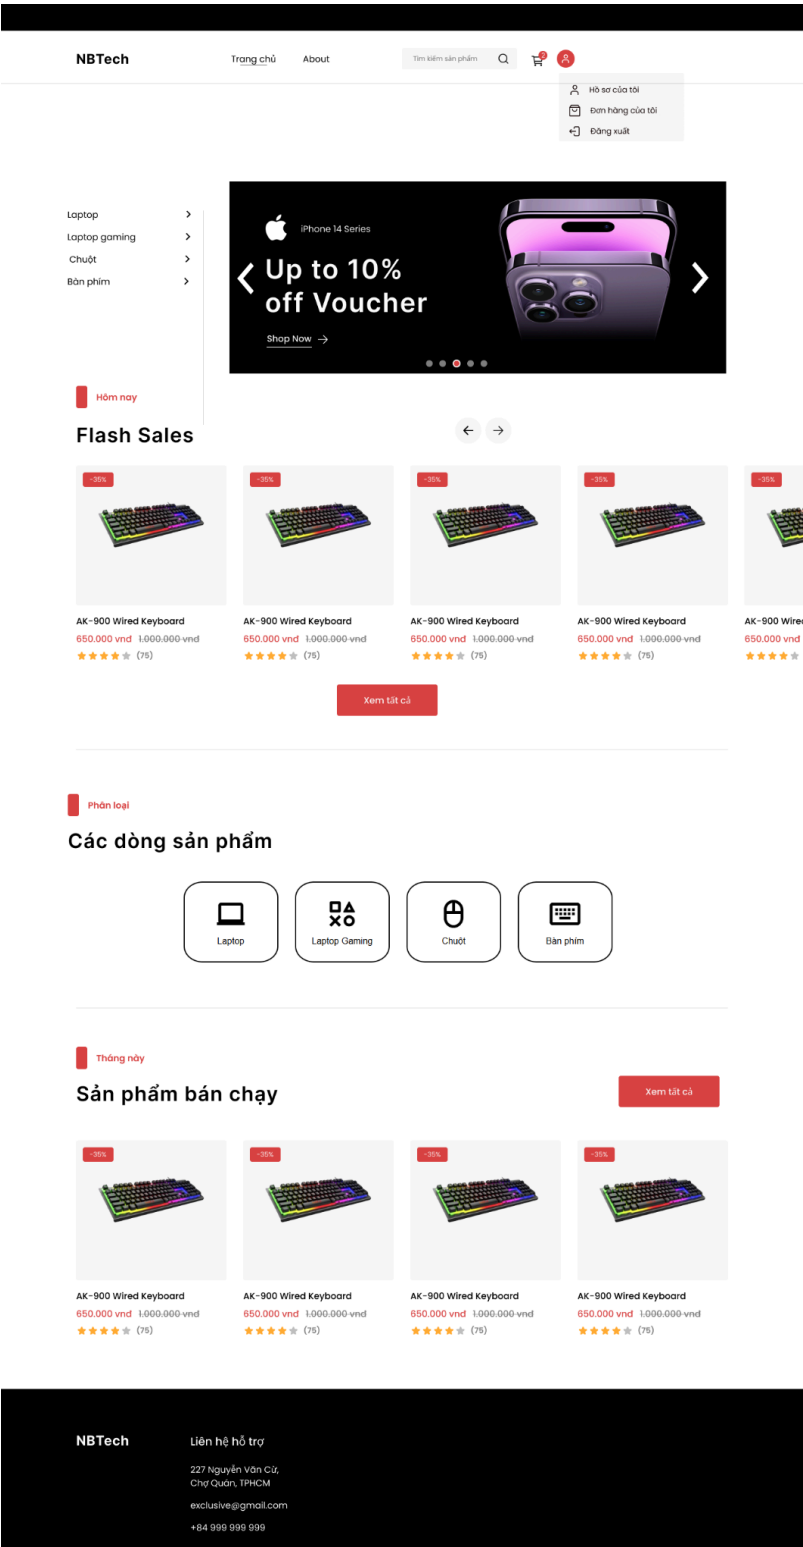

Component	Action
Logo (“NBTech”)	Click to return to the homepage.
Search Bar	Allows users to search for products using keywords.
Navigation Menu (“Trang chủ”, “About”)	Navigate to main pages like Homepage, About Page
User Icon (Profile Menu)	Opens user options: view profile, order history, or log out.
Cart Icon	Open the shopping cart to review selected items or proceed to checkout.
My Profile (“Hồ sơ của tôi”)	Click to view or edit user profile information.
My Order (“Đơn hàng của tôi”)	Click to view order history and track current orders.
Logout (“Đăng xuất”)	Click to log out from the current user account.

2. Homepage Screen

- The homepage showcases featured banners, flash sales, popular products, and clearly organized product categories to help users quickly discover and explore available items.

NBTech	Version: 1.2
UI Prototype	Date: 14/08/2025
<document identifier>	

NBTech	Version: 1.2
UI Prototype	Date: 14/08/2025
<document identifier>	

Component	Action
Main Banner Slider	Displays promotional banners that can rotate.
Flash Sales Section	Shows limited-time discounted products to encourage quick purchase.
“Xem tất cả” Button (Flash Sales Section)	Redirects to a page listing all flash sale items.
“Sản Phẩm Bán Chạy” Section	Highlights best-selling products.
“Xem tất cả” Button (“Sản Phẩm Bán Chạy” Section)	Opens the full list of best-selling products.
Category Icons	Filters products by specific categories when clicked.
Product Cards	Clicking on a product card opens the product detail page.

3. Authentication Screen

- The authentication screen encompasses the website’s login, signup, and password recovery interfaces, allowing users to securely access their accounts. It provides input fields for credentials, account creation details, and options to reset forgotten passwords. Designed with both security and usability in mind, it ensures a smooth onboarding and access experience for all users.
- 3.1. Sign Up Screen**
- The sign up screen enables new users to create an account on the website. It typically includes fields for personal details and login credentials. A well-designed sign up screen ensures a quick, secure, and intuitive registration process.

NBTech	Version: 1.2
UI Prototype	Date: 14/08/2025
<document identifier>	

Component	Action
Input fields (Tên, Email, Số điện thoại , Địa chỉ, Mật khẩu, Xác nhận mật khẩu)	Allow the user to enter required personal and login information for account creation, including identity details, contact information, and secure credentials.
“Tạo tài khoản” button	Submits the registration form and creates a new account in the database.
“Đăng nhập” link	Redirects the user to the login screen

3.2. Login Screen

- The login screen allows users to access their accounts by entering their registered email and password. It includes options such as “Forgot Password” for account recovery and a link to the sign up page for new users. Designed for both security and ease of use, it provides a quick and straightforward login process.

Component	Action
Input fields (Email , Mật khẩu)	Allow the user to enter their registered contact information and password to log in.
“Đăng nhập” button	Submits the login form and grants access if the provided credentials are valid.
“Đăng ký” link	Redirects the user to the registration screen for creating a new account.
“Nhấp vào đây” link	Redirects the user to the password recovery page to reset their password.

NBTech	Version: 1.2
UI Prototype	Date: 14/08/2025
<document identifier>	

3.3. Forgot Password Screen (input email to recover screen)

- The forgot password screen allows users to reset their account password by entering their registered email address. After submission, a password reset link or verification instructions are sent to the provided email. This process ensures secure and convenient account recovery.

Component	Action
Input field (Email)	Allows the user to enter their registered email address to initiate the password recovery process.
“Gửi mã” button	Send a verification code to the provided email for password reset.

3.4. Input Code To Reset Password Screen

- The input code to reset password screen allows users to verify their identity by entering the code sent to their registered email. Once the correct code is entered, the user can proceed to create a new password. This step ensures that only the rightful account owner can perform the password reset.

NBTech	Version: 1.2
UI Prototype	Date: 14/08/2025
<document identifier>	

Nhập mã của bạn để đặt lại

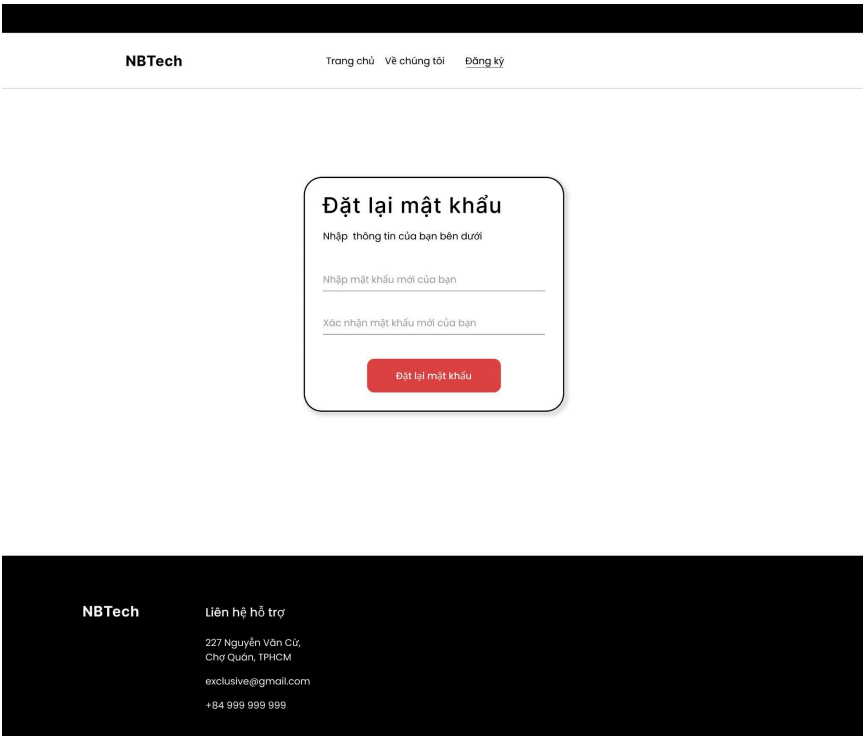

Check your email: account@email

Chuyển đến đặt lại

Component	Action
Input field (Email)	Allow the user to enter the verification code sent to their registered email to confirm their identity.
“Chuyển đến đặt lại” button	Submits the entered code and redirects the user to the password reset screen if the code is valid.

- 3.5. Change Password Screen**
- The change password screen allows users to set a new password after successfully verifying their identity. It typically includes fields for entering and confirming the new password to ensure accuracy. This step finalizes the password reset process.

NBTech	Version: 1.2
UI Prototype	Date: 14/08/2025
<document identifier>	

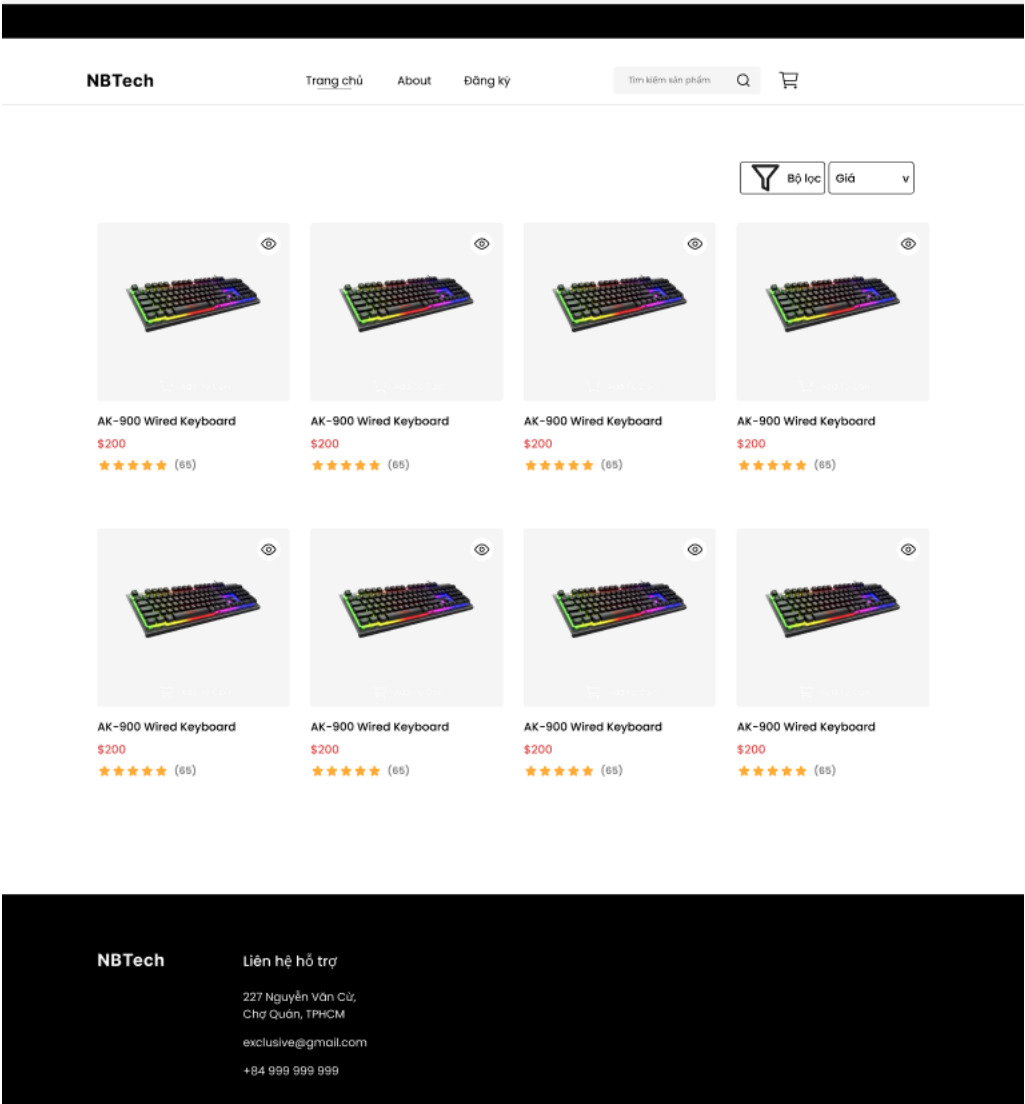

Component	Action
Input field (“Nhập mật khẩu mới”)	Allows the user to enter a new password for their account.
Input field (Xác nhận mật khẩu mới của bạn)	Requires the user to re-enter the new password to ensure accuracy and prevent typos.
“Đặt lại mật khẩu” button	Submits the new password and updates the account credentials if both fields match and meet security requirements.

4. View All Products Screen

- The View All Products screen displays a list of all available products, allowing users to browse, search, and filter items. It includes a navigation menu, a search bar, sorting and filtering options, and a grid view of product cards. Each product card shows an image, product name, price, rating, and quick view option. Users can also add items to their cart directly from this page.

NBTech	Version: 1.2
UI Prototype	Date: 14/08/2025
<document identifier>	

Component	Action
“Bộ lọc” button	Opens filter options, allowing users to refine product results by criteria such as category, price range, or rating.
Sort Dropdown (Giá)	Allows users to sort products based on price or other parameters.
Product Image	Displays the product visually; clicking may open a quick view or detailed page.
Product Name	Shows the name of the product and links to the product detail page.

NBTech	Version: 1.2
UI Prototype	Date: 14/08/2025
<document identifier>	

Product Price	Displays the cost of the product.
Rating & Review Count	Shows the average star rating and number of reviews.

5. View Product's Detail Screen

- This is a product detail interface that allows users to view complete information about a product, including images, price, description, specifications, and reviews, as well as adjust quantity, add the item to the cart, and read related product suggestions.

Thông tin sản phẩm

Thông tin	Chi tiết
Thương hiệu	Apple MacBook Air M2
Bảo hành	12 tháng
Màu sắc	Xanh
CPU	Apple M2 8 nhân
Clock độ họa	Apple GPU 10 nhân
Kích cỡ màn hình	13.3 inch Liquid Retina
Bộ nhớ (RAM)	16GB LPDDR5
Ổ cứng	512 SSD
Camera	1080p FaceTime HD
Pin	18 giờ sử dụng
Cân nặng	1.24 kg

Thiết kế sang trọng, mỏng nhẹ

MacBook Air M2 sở hữu thiết kế nguyên khối tinh tế, cực kỳ mỏng chỉ 11.3 mm và nặng 1.24 kg, dễ dàng mang theo mọi nơi. Vỏ nhôm tại chế bền bỉ, màu sắc thời thượng như Xám, Bạc, Starlight, tạo nên sự đẳng cấp cho người dùng.

Chip Apple M2 mạnh mẽ

Trang bị chip Apple M2 thế hệ mới, MacBook Air mang đến hiệu năng vượt trội:

- Xử lý đa nhiệm mượt mà
- Đóng video, xử lý ảnh nhanh chóng
- Tiết kiệm năng lượng tối ưu

Màn hình Liquid Retina siêu nét

Màn hình 13.6 inch Liquid Retina với độ sáng 500 nits, hỗ trợ dải màu P3, mang lại hình ảnh sắc nét, màu sắc trung thực – lý tưởng cho thiết kế đồ họa, chỉnh ảnh, xem phim.

Pin ấn tượng lên đến 18 giờ

Với thời lượng sử dụng lên đến 18 giờ, bạn có thể yên tâm học tập, làm việc cả ngày mà không cần sạc liên tục.

Camera và âm thanh chất lượng cao

- Camera 1080p FaceTime HD cho hình ảnh rõ nét khi gọi video
- Hệ thống 4 loa với Spatial Audio tạo trải nghiệm âm thanh sống động

17.3. Edit Account Screen

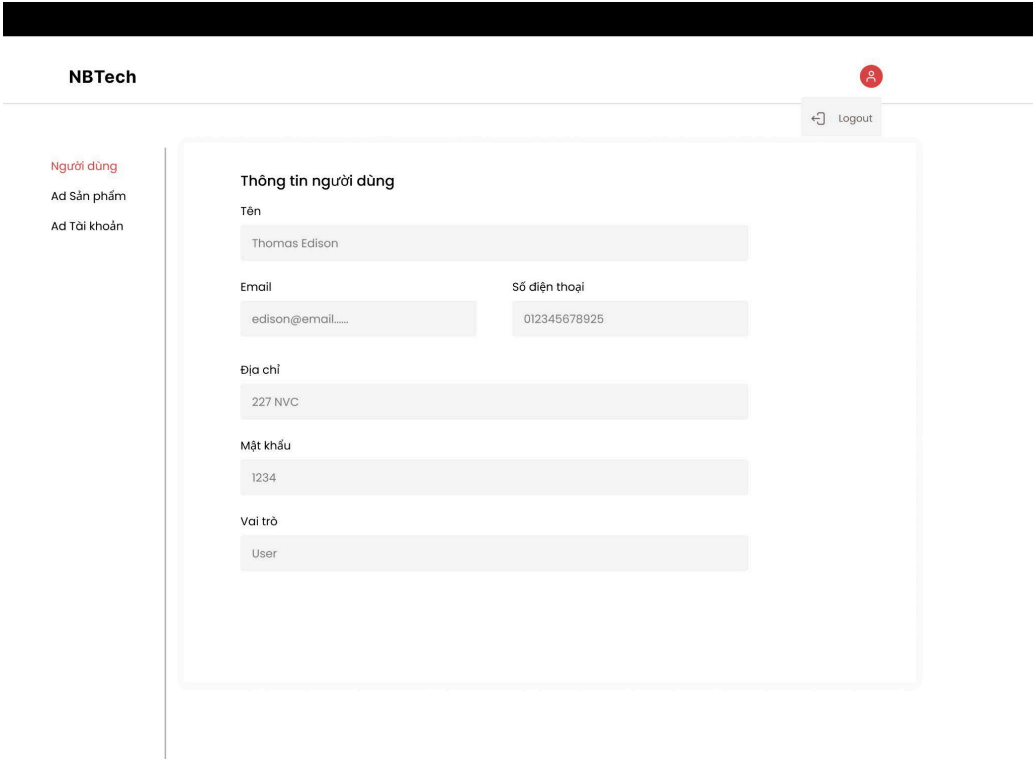

- The Edit Account Screen allows the admin to modify an existing user’s details, such as full name, email, phone number, address, password, and role. It displays pre-filled form fields with the current account information for easy updating. “Thay đổi” button is provided to confirm and apply the changes to the system.

Component	Action
Sidebar	Allows the user to navigate to the account list screen from any page.
Input fields (Full name, Email, Phone number, Address, Password)	Allow viewing and editing personal and login information for an existing user, with possible format validation and required field checks.
Role dropdown	Allows changing the account’s role (User or other permissions).
“Thay đổi” button	Saves and applies the updated account information to the system.

17.4. View Account Detail Screen

- The View Account Detail Screen displays a user’s complete information, including full name, email, phone number, address, and role. It presents the data in read-only fields to prevent accidental modifications.
